

MODERN

SEMI FRAMELESS SLIDING SHOWER SCREEN

Effective Space Utilisation

Flexi Showers Modern Frameless Corner Entry Sliding Door Shower Screen is designed to facilitate a full-size shower enclosure for when bathroom floor space is at a premium, with proximity of vanities, toilets and baths restricting access to the shower enclosure is no longer an issue.

Dual frameless sliding doors enable Corner Entry options for smaller shower enclosures in confined areas, providing clear and easy access.

- Full length magnetic door seals, provide a positive close on point-of-entry. This eliminates door roll back and creates impressive water splash resistance improving bathroom safety and function.
- The smooth sliding action of the frameless doors are enhanced by dual roller carriages featuring stainless steel bearings, ensuring premium operation at all times.

Standard Colour Frame Options
